

**MOSS VALE TERMS AND CONDITIONS  
FOR REPAIR STATION  
SUPPLIERS AND CONTRACTORS**

Repair Station vendors performing maintenance on aircraft parts are subject to the Federal Aviation Administration final rule interpretation to Title 14 for insuring you and your subcontractors have in place an FAA Approved ADAMPP (Anti-Drug and Alcohol Misuse Prevention Program) when it is identified that the work is for parts used in the repair process for airline customers or customers who are working with airlines.

By accepting a purchase order, your company agrees to immediately report to Moss Vale and the Federal Aviation Administration any failure, malfunction, or defect in any product, part, process or article manufactured. Your company also agrees to allow Moss Vale and the Federal Aviation Administration access to inspect any parts and processes performed on any parts.

If you do not consent to allow such inspection and observation by Moss Vale and the Federal Aviation Administration, you are hereby directed not to perform any activity with this purchase order and notify the purchasing representative immediately.
